Decision Delivered

DO THIS TODAY: Markets are open. Spring side-dress nitrogen window remains open through partly sunny then chance showers and thunderstorms. If you have N to apply on corn now at V5 to V8 stage, today's 86F window is your work day. Tomorrow's tonight low drops to 60F - cool nights help corn build root mass. Farm context: Meixell Farms - 3,700 acres (1,600 owned + 2,100 rented), corn/soybean rotation, Crystal Valley cooperative (real intake on file)..
