Decision Delivered

DO THIS TODAY: Markets are open. Spring side-dress nitrogen window remains open through partly sunny. If you have N to apply on corn now at V5 to V8 stage, today's 86F window is your work day. Tomorrow's tonight low drops to 66F - cool nights help corn build root mass. Source: NOAA point forecast + Iowa State University Extension agronomy guidelines.

Farm context: Founder Edition - Milford, Iowa (Dickinson County). Per-farm Decision Delivered ships when Phase 2 has live intake..

The Coffee Shop

Stub's Joke of the Day

A spark from the combine bearing started a small chaff fire. The farmer beat it out with his cap. His wife said, "That's a \$40 cap." He said, "It saved a \$400,000 combine. Best return I had all year."

Today in Farm History - Rural Free Delivery 1896

On October 1, 1896, the U.S. Post Office began Rural Free Delivery (RFD) on five experimental West Virginia routes. By 1902 it served the whole country. RFD meant a farmer could read yesterday's grain prices at his own mailbox instead of riding to town. Source: U.S. Postal Service historical archive; Smithsonian Postal Museum.

Stub's Quiz

Joseph Glidden received the barbed-wire patent in 1874 in which Illinois town?

- (a) Peoria
- (b) Rockford
- (c) DeKalb
- (d) Galesburg

Answer at the bottom of the Brief.

Quiz Answer

(c) DeKalb. Glidden received U.S. Patent No. 157,124 on November 24, 1874. Within ten years the open range was fenced from Iowa to Texas - crop farmers loved it; cattle drovers did not. Source: U.S. Patent Office; Smithsonian National Museum of American History.
